Manual Magnetic Blinds

Stylish and Sophisticated

Our blinds offer a versatile means of privacy and shading.

Our totally cordless system is operated via sliding magnetic blocks. These simple-to-use and unobtrusive controls are located around the perimeter of the unit.

Contemporary and durable Venetian blinds are available with the full lifting operation happening in one slick and easy motion. The tilt function allows you to set the levels of vision and light to your specifications.

- Maintenance Free - hermetically sealed double-glazed panels protected from moisture, dust and damage.
- Available in sizes up to 2500mm high and 2000mm wide.
(Please note, width and height restrictions can apply).
- Full range of glazing options including solar shading, low E, fire rated and noise reduction.
- Standard units are 28mm thick when glazed, with 4mm glass either side of the 20mm spacer bar.
- Available in 10 colours (see back page).
- Manufactured in accordance with all parts BSEN 1279 and have full CE accreditation.

No Strings Attached

Stylish and safe design with no external cords.

Completely Maintenance Free - protected from damage and dust.

Comes with a full 10 year warranty on the double glazed unit, 5 year warranty on the magnetic operation and 2 year warranty on the motorised blind.

Ideal for sliding and bifold doors.

Magnetic Blind Colours

Venetian blind colours are representational only and these can be affected by your chosen glazing options.
Please contact us for further information and to request a swatch.

*RAL colours are an approximate match.
